1. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The declarations are **defective**. The reissue declarations contain the following language or a similar variation: "I acknowledge the duty to disclose information that is material to the examination of this application..."

A reissue declaration that includes such language is **not** acceptable since that language does not comply with **37 CFR § 1.63(b)(3)** which requires that the declaration must state "that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in § 1.56." Note that 37 CFR § 1.175 requires that reissue declarations comply with § 1.63, in addition to stating that the patent is wholly or partly inoperative or invalid, stating a specific error, etc. Statements that reissue applicant acknowledges a duty to disclose information material to examination or complies with § 1.56(a) are not sufficient.

2. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.
3. Claims 1-13 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.
